

SecurSearch eDiscovery

DOMINO 8.5 READY

With SecurSearch, you can meet investigative, compliance, regulatory or internal governance needs in an efficient and timely manner. Alternatively, you can also use SecurSearch to perform defensive audits regularly basis by executing stored query procedures you have composed and saved.

- Now it is possible to perform searches across user mail databases in addition to SecurTrac logs.
- Searches can be performed using Domino Full Access Administration security settings.
- Searches can be executed by the Domino server for optimized performance.
- Use the intuitive Formula Wizard to select a wide range of search criteria.
- Ability to save and reuse search query settings easily.
- Export search query results into a CSV file format.
- All searches performed using SecurSearch can be logged for auditing purposes.

Interface Description:

- 1 - Criteria Editor**
 - Allow user to input a full-text search formula.
