

## ExtraFax in Government Agencies

**DOMINO 9 READY**

- City of Liberty in Missouri
- State of Mississippi
- Children's Memorial Hospital in Chicago, IL
- Philadelphia Dept of Public Health & Disease Control
- North Carolina Department of Crime and Public Safety
- Kansas Dept of Health & Environment Information System

"My experience with ExtraFax so far has been very good. Installing the server was quick and easy with no complications. The ExtraFax Post Office database provides straightforward centralized management of user preferences, cover pages, fax transmissions, and server settings. I believe Extracomm offers an excellent Lotus Notes/Domino based fax solution at a very competitive price".

City Of Liberty, MO

"ExtraFax has proven to be a seamless and reliable replacement for 'FAX for Domino'. We looked at other products that were expensive, had unresponsive support, and had evaluation versions that didn't install properly. Extracomm was the only vendor that provided an Evaluation copy that worked along with helpful Support. They also had the best price. We've had ExtraFax installed for over a year now. It has worked without problem and we are well pleased with it and with Extracomm".

Mississippi Management and Reporting System  
State of Mississippi

"We needed to replace a stand-alone desktop fax application with one that was integrated into our Lotus Notes. ExtraFax was the only product that we evaluated that balanced cost, scalability and Notes integration into a package that was simple to install and maintain and more importantly easy for the users to understand and use. Their technical support is quick to respond to issues although after over two years we have had no problems. We are very satisfied with ExtraFax and would strongly recommend it as a Domino fax solution".
